LOCUM Psychiatrist
Mood and Anxiety Disorders Program
3 to 6 Month Opportunity

The Royal Ottawa Health Care Group (ROHCG), is a 628-bed, academic health science centre, providing leadership in clinical, educational and research activities in the Champlain Local Health Integration Network (LHIN). The Royal combines the delivery of specialized mental health care, advocacy, research and education to transform the lives of people with complex and treatment resistant mental illness. The ROHCG is a fully affiliated teaching site for the University of Ottawa.

The Mood & Anxiety Disorder Program at the Royal Ottawa Mental Health Center is seeking to recruit a LOCUM psychiatrist with exemplary credentials, demonstrated proficiency in working collegially and respectfully within medical and multidisciplinary teams, and a specific interest in the treatment of persons with mood and anxiety disorders. The position involves an opportunity for holiday relief, crisis unit and outpatient program.

The Mood & Anxiety Disorder Program is committed to the continuous development and maintenance of a high quality, safety orientated, and patient and family centered tertiary clinical program, with strong academic commitments, as well as to the development of a more elaborate research portfolio. The program participates in teaching of medical students and psychiatric residents associated with University of Ottawa, as well as students from other disciplines and universities. The Royal Ottawa Mental Health Center has recently installed a state-of-the-art fMRI-PET Scanner, which is the only such device in the country designated to mental health research.

By joining the ROHCG you will experience a unique practice opportunity which provides:
- The opportunity to work with a large academic centre.
- No expectation for provision of on call or emergency services, supporting an ideal work-life balance.
- Hospital office space.
- Being part of a dynamic multidisciplinary team including a full complement of allied health professionals, and on site social work to provide care.
- Participating in medical student and resident teaching, if desired.

Remuneration: Combination of Fee for Service and Stipend.

Qualifications: Royal College Certification FRCP(C) Psychiatry and an Unrestricted Registration with the College of Physicians and Surgeons of Ontario (CPSO).
