

If you require services from Histology Core Facility during Phase 2 of re-opening, please email [pathlab@uottawa.ca](mailto:pathlab@uottawa.ca) with the number of projects within your lab that will require the Histology Core services. This will ensure we can plan according to the demand.

Please observe the following rules:

- 1) Only one request per member of your lab will be accepted.
- 2) All requests should not exceed 100 slides for sectioning and staining.
- 3) All drop-off and pick-up of samples will be scheduled in advance in order to avoid interactions between staff and user, and to avoid users arriving on site at the same time. Users will be contacted after adding their requests to iLab and once requests are completed. Please kindly direct your researchers/students and technicians not to show up unannounced at the Core; this new process is meant to ensure the safety of both users and our staff. Users will drop off their samples in a cart located in front of room 4130, and will pick up their orders from a cart located in front of room 4145. Please respect your appointment times.
- 4) Antigen retrieval will only be performed once daily, at 10:30am. Please input requests in iLab no later than 10:00am in order to ensure service on that day. Once you submit the request, please call extension 8332 to schedule drop off of slides.
