TITLE OF TALK:
DIAGNOSTIC REASONING: CAN YOU TRUST YOUR GUT OR ARE YOU BIASED?

OBJECTIVES

• Describe the Dual Process Model of Reasoning
• Explain emerging evidence that emphasizes the role of experience in decreasing error
• List potential interventions to decrease diagnostic error among novices

PROFILE

Dr. Sherbino is the Assistant Dean, Education Research, Faculty of Health Sciences, McMaster University. He is an associate professor in the Department of Medicine, McMaster University. Jonathan is the chair of the Specialty Committee for Emergency Medicine, Royal College of Physicians and Surgeons of Canada.
