TITLE OF TALK:

EXPLORING LEARNER HANDOVER

OBJECTIVES

- Describe the potential benefits and risks of learner handover
- Discuss how exposure to past performance information can impact current performance assessment

PROFILE

Dr Humphrey-Murto completed her MD and Internal Medicine at the University of Ottawa, followed by Rheumatology and a Masters in Education at the University of Toronto. She maintains an active clinical practice in Rheumatology and osteoporosis. Presently she has several administrative roles including Director of Medical Education Research in the Department of Medicine; Director, Research Support Unit, DIME; Director of the uOSSC/ DIME Fellowship and is Co-Chair for the Education Research and Development Committee of the RCPSC.

Dr. Humphrey-Murto, MD, FRCPC, MEd
Director, Research Support Unit, DIME
Director, uOSSC/DIME Fellowship
Co-Chair, Education Research and Development Committee, RCPSC

RESEARCH INTERESTS

Her research interests involve performance based assessment, feedback and consensus group methods.

The DIME Rounds are a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of The Royal College of Physicians and Surgeons of Canada.
