Maternity Leave Locum

Looking to fill a maternity leave family medicine locum onwards of May, June or July 2019 for approximately twelve (12) months (depending on the candidate’s availability).

The locum would fill approximately five (5) family medicine half-day shifts per week, at $450/half day. These could be spread out over the week or condensed into 2.5 days. There are additional minor on-call requirements of approximately one evening or weekend shift in a walk-in afterhours clinic per month. The successful candidate must be licensed to practice in Ontario. Excellent interpersonal skills and a commitment to inter-professional care are essential. Bilingualism (English and French) would be an asset.

If helpful, a shorter locum (whether of a few days, or 1-2 weeks), or tour of the clinic, could be organised for anyone interested in the locum. This practice would also be a great opportunity for a new grad interested in starting in July too!

This opportunity includes:

- Great location: 300 Marie-Curie Private, Ottawa
- References from previous locums to this particular practice
- Fully computerized clinic
- Managed nursing and administrative support (you get to focus on the medicine)
- Up to seven (7) weeks leave (for holidays or continuing professional development), to be negotiated
