Practice profile:

- 65+ year practice rebranded to Ottawa Health: Performance and rehabilitation
- Multi-disciplinary clinic consisting of chiropractors, physiotherapists, massage therapists, nutritionist, and naturopathy
- Looking to complete integration by incorporating family practice
- Evidence-based practitioners, collaborative care model

Purpose:

- Our goal is to establish a long-lasting relationship with the associated physician/candidate
- Establish OHPR as an Ottawa stable providing the most up-to-date evidence-based multi-disciplinary collaborative healthcare

What we can offer:

- Full- or part-time availability of 1 immediate room with possibility of acquiring two treatment rooms as volume increases
- Availability of 1 full time physician or 2 part-time physicians
- Fully staffed Monday-Saturday
- Remuneration: Fee for service / block billing / very competitive split (to be discussed with candidates)
  - The split percentage will be reflective of the proportional use of the facility. We are not trying to capitalize on the family medicine portion but rather build a source of referrals and have access to medical procedures and/or requests.

Business model:

- Ottawa Health is an evidence-focused team that utilizes modern technology and the latest clinical guidelines to create appropriate, collaborative, and cost-effective treatment plans aimed at achieving the best possible outcomes for our clients
- We believe that reputation, service, and dedication are more important than numbers. For that reason, our manual practitioners do not use treatment assistants. All of our consultations are 1-1 with your practitioner from start to finish.
