

ANATOMICAL PATHOLOGY EPA

STAGE: FOUNDATION (F)

CHECKLIST WITH REQUIRED NUMBER OF SUCCESSFUL OBSERVATIONS

Resident Name:.....

PGY Level:.....

Date of review:.....

FOUNDATIONS STAGE	Required successful observations	Number of observations completed
<p>1. Performing gross dissection of simple surgical specimens from accessioning to submission of blocks</p> <p>Assessment plan:</p> <p>Direct or indirect observation by pathologist, pathology assistant, or Core or TTP trainee</p> <p>Use form 2. Form collects information on:</p> <ul style="list-style-type: none"> - Observation: direct; indirect - Specimen type: [free text] <p>Collect 10 observations of achievement</p> <ul style="list-style-type: none"> - At least 5 direct observations by a pathologist - A variety of cases 	10	
<p>2. Microscopic reviewing and reporting of simple surgical specimens</p> <p>Assessment plan:</p> <p>Direct observation by General or Anatomical Pathologist, or TTP trainee</p> <p>Use Form 1. Form collects information on:</p> <ul style="list-style-type: none"> - Organ System: breast; bone & soft tissue; gynecology; gastrointestinal; genito- urinary; head & neck; endocrine; skin; cardio vascular; thoracic; neuropathology; lymph nodes & spleen <p>Collect 10 observations of achievement</p>	10	

<ul style="list-style-type: none"> - At least 4 organ systems - At least 3 different observers - At least 2 observed by surgical pathologists 		
<p>3. Assessing patients and integrating clinical information in the evaluation of disease processes</p> <p>Assessment Plan:</p> <p>Direct observation and/or case review by supervisor</p> <p>Use Form 1. Form collects information on</p> <ul style="list-style-type: none"> - Type of observation (select all that apply): direct observation of history; direct observation of communication with patients; case discussion or chart review - Setting: Medicine; Surgery; Oncology; Pediatrics; other - If "other" please indicate setting: [free text] <p>Collect at least 10 observations of achievement</p> <ul style="list-style-type: none"> - At least 2 of each type of observation - At least 2 each for medicine, surgery, oncology, and pediatrics - At least 1 assessment from a staff supervisor in each setting 	10	
<p>4. Performing basic tasks in autopsy pathology</p> <p>Assessment Plan:</p> <p>Part A: Verification of consent and chart review Direct observation by pathologist or TTP trainee</p> <p>Use form 1.</p> <p>Collect 2 observations of achievement</p> <p>Part B: Performing basic tasks related to autopsy Direct observation by pathologist or TTP trainee</p>	2	

<p>Use form 2. Form tracks information on</p> <ul style="list-style-type: none"> - Task (select all that apply): open the pulmonary vasculature; open the aorta, identify and dissect the main arteries; open the bowel; dissect the pelvic block; obtain quality photographs as directed; complete required forms for ancillary tests (e.g.: microbiology requisitions, biochemistry requisitions etc.); other - If 'other task' is assessed, please specify: [free text] <p>Collect 2 observations of achievement</p> <ul style="list-style-type: none"> - Only 1 "other" task
